

St George's Academy Partnership

School Centred Initial Teacher Training

St Giles Nursery is proud to be working with [St George's Academy Partnership](#), who will award the Qualified Teacher Status (QTS) and [Lincoln University](#) who will accredit the PGCE.

Together these two organisations have an extremely successful track record of training Secondary School Teachers, 100% of trainees last year had teaching jobs for September.

Our programme will offer trainees the chance to become fully trained Primary teachers with a specialism in the 3-7 age range.

St Georges Academy Partnership prides itself on keeping the number of students in each cohort small so that the programme can be adapted to the needs of each student and tutors and mentors really get to know each individual trainee and are able to fully support them.

We are currently recruiting trainee teachers for September 2021. Our aim is to train the best candidates we can to teach in Lincolnshire and beyond. On UCAS, trainees have the opportunity to apply directly to a school to train to teach, ensuring that the school is both a 'good fit' and also manageable in terms of location. From your first interview to your start in September we will try to do everything we can to make you feel at home in your training school and ready to start your training year.

This path into teaching is a great way to gain the qualifications and practical skills you need to become a teacher. It allows those who have just finished a degree, or have

been working in a career for many years to combine teacher training with actually doing and learning on the job.

We work closely with our schools in the partnership to enable us to offer a fantastic training programme for our trainees. We offer a personalised training package to suit your needs. Give St George's Partnership a call 01529 301193 or email wendy.procter@teacher-training.org or arrange an informal chat with Wendy Procter at St George's Academy, Sleaford.
